

SCHNEID

Control Systems for energy distribution solutions

- Control of up to 8 heating circuits
- 77 hydraulic switching variants
- Zero-Cross-Detection (Zero pass-through circuit)
- Internal wireless modules possible
- Direct connection of remote controls
- Data network capable
- In-room remote controls
- Control by smartphone apps
- Power limitation function
- Userfriendly
- OEM-solutions

Modern Life - Modern Solutions

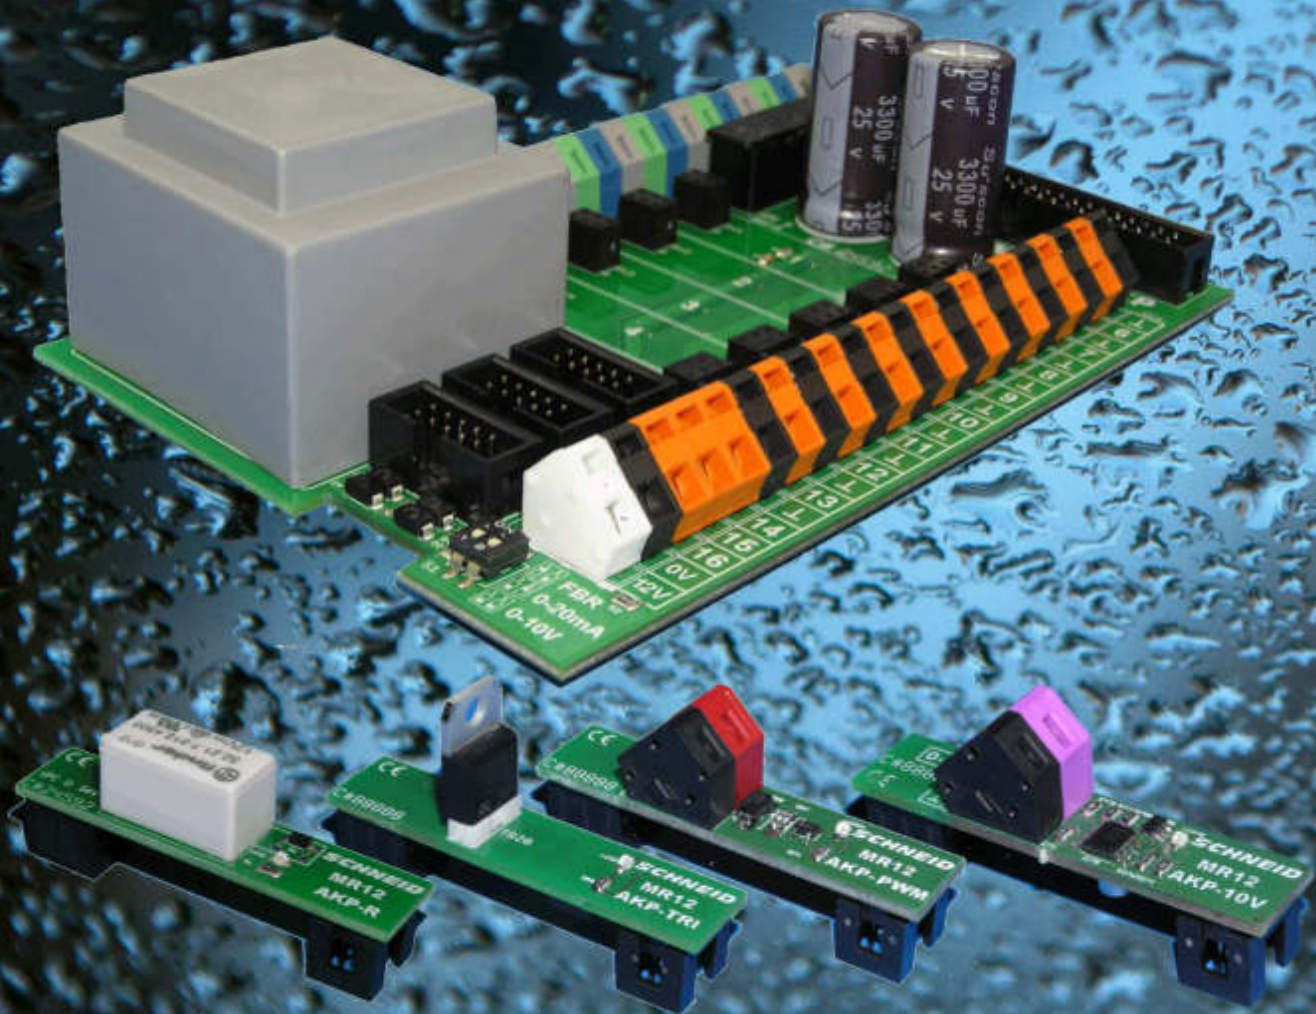

SCHNEID GesmbH

SCHNEID

AKP - Platine (Connection board)

- All outputs are run on plug-in modules
- Standard relay from FINDER
- TRIAC - Relay (for controlling drives with very high switching frequency)
- PWM - Relay (for controlling pumps with PWM signal)
- 0-10V - Relay (for controlling pumps with 0-10V signal)
